

# Advantages of having a double mastectomy

- 1) No more mammograms
- 2) When all my friends get saggy boobs when they get old... I can make my fake ones look perky
- 3) I feel like a kid again since I have the same shape as my 7 year old granddaughter
- 4) I can make my fake breasts the size of a 13 year old or the size of a stripper or porn star
- 5) I lost a little weight (but I wouldn't suggest it as part of your weight loss program)
- 6) I no longer need an excuse for not going to nude beaches
- 7) The most important advantages of having a double mastectomy... no more cancer in my breasts!!  
Extra bonus~having Dr. Margulies as my surgeon
